**Description**

**OVERVIEW**

Based on the powerful, fuel-efficient Ram Prom aster(r) chassis, the Travato(r) has been at the forefront of the Camper Van revolution since its introduction. Elevating the Travato to another level is the addition of the Pure3 Advanced Energy System in the 59GL and 59KL floorplans. This advanced lithium technology outperforms the competition and offers an impressive 48-volt system that delivers seamless operation, power, reliability, and sustainability. Enhanced with premium features such as Corian(r) countertops, dual-pane acrylic windows, and the energy-saving Truma Combi(tm) Eco Plus Heating System, the Travato is better than ever. Thanks to significantly upgraded standard features like an expandable solar system and new interior décor colorways, you can tailor the Travato to suit your needs.
